GABION BASKETS

ACME SAND & GRAVEL IS HAPPY TO ANNOUNCE THAT WE ARE TUCSON'S SUPPLIER OF ROCK WALL BASKETS. GABION BASKETS ARE CURRENTLY AVAILABLE IN 5 DIFFERENT SIZES. GREAT FOR ARCHITECTURAL & LANDSCAPE DESIGNS.

Unfold gabion panels and layout flat (6' basket shown in Fig 1)

Made in the USA Gabion Baskets are fabricated from precision welded rusty steel wire mesh. Gabions are sold un-assembled in a flat panel kit which can be easily transported and assembled in cells of varying sizes on the job site in minutes. Once erected, they are set into place and filled with decorative rock or rip-rap to form a monolithic, flexible structure.

They may be used in various architectural and landscaping applications such as retaining walls, fences, pedestals, and columns. They are particularly suitable for slopes and unstable terrain. Where ground is liable to subside, the ability of gabions to deform makes them preferable to a concrete wall which would crack and collapse.

Sizes	Possible Uses	Cubic Feet Volume	Cost Ea.
3' x 3' x 3'	Pedestal	27	\$79.00
6' x 3' x 1.5'	Fence	27	\$109.00
